Lemon-Aid New Cars and Trucks 2012 Phil Edmonston 2011-01-01 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

The BMW Century Tony Lewin 2016-11-01 Relive the first one hundred years of Germany's best two- and four-wheeled rides. Established in 1916, BMW is one of the auto and motorcycle industry's oldest and most-respected car and motorcycle manufacturers. Over the past century, the company went through myriad developments. The BMW Century chronicles this remarkable transportation company through images of the cars and motorcycles it manufactured, from the 1923 R32 motorcycle to sleek electric cars of today. This handsome volume is filled with images, history, and in-depth looks at the incredible machines BMW created year after year. The BMW Century showcases how the company's new visionary team systematically rebuilt BMW in the post-World War II years into the spectacular success we know today - that is, a company with sales projected to be upwards of two million cars annually by 2016, led by its 3-series, the best-selling luxury-performance car in the world. BMW's motorcycle division is no less legendary. It began with the 1923 avant-garde R32, which featured a 180-degree, horizontally opposed twin, the engine configuration that would become BMW's hallmark. Along the way, BMW would use that configuration to power groundbreaking machines like the R90S, R100RS, and R80GS. Beginning in 1983, they would add three- and four-cylinder machines to their offerings, culminating in today's spectacular S1000RR sport bike. From the pre-war motorcycles to the iconic R-series twins of the 1970s and 80s to the mighty M-series cars and superbikes of today, The BMW Century offers a full review of German engineering at its finest. The book is illustrated with hundreds of historic, contemporary, and racing photographs - many sourced from BMW's archives - and detailed text relating the BMW's full history. This is the one volume no BMW aficionado can be without.
